

# CAPE DORY

a standard of value

## Cape Dory 33

. . . driving to windward or coasting downhill with spinnaker pulling . . . the Cape Dory 33 will respond to your every command. Carl Alberg designed her that way to add an exciting dimension of performance to family cruising.

She's a powerful *full keel* sloop able to carry a large foresail for driving power. She's built extra strong for coastal cruising or offshore passages. With comfort and safety. And like the 3,000 *full keel* Cape Dory Yachts before her, she's finished as a fine yacht with generous use of teak and

custom-cast bronze hardware. Quality construction with exciting performance. A solid sailboat; a solid investment. A pride to own.

Before you decide on any boat . . . inspect a Cape Dory to fully understand how seaworthy, lively boats are built.

# CAPE DORY YACHTS

100 Middleboro Avenue, East Taunton, MA 02718 (617) 823-6776
