 DISP.—1750 Lbs Approx  
 S. A.—160 Sq Ft

Expertly designed by Carl Alberg and superbly constructed by Cape Dory Co., Inc. the Alberg Typhoon is an exceptional day sailer and racer with a true yacht-like feel and appearance whether under sail or at the mooring.

A full wine glass shape keel with 900 lbs. of lead solidly encased within her hull makes the Typhoon a family-safe boat. Her large cockpit affords ample room for a racing crew and the extra wide cockpit coaming assures comfort for extended day sailing or short cruises. Her cabin provides two full berths — large storage compartments and room for a marine toilet.

Cape Dory uses only the finest construction materials as

Marine toilet .....	\$140.00	
Outboard bracket .....	55.00	
Cockpit cushions .....		} Prices on request
Cockpit cover .....		
Spinnaker gear .....		

well as employing the greatest care in the crafting of the fiberglass hull. A fine blend of bright finished mahogany and quality fiberglass molding.

Standard equipment includes aluminum spars with roller-reefing stainless steel standing, dacron halyards and running rigging. All deck hardware including genoa gear and winches. Berth cushions, cradle, antifouling bottom and boot top. Specially molded-in mahogany transom is also standard.

Cape Dory does not compromise in any phase of boat building and is proud to make this addition to their present line of quality boats.

Main .....	\$150.00
Jib .....	100.00
Genoa .....	135.00

Sails by Dyson of Marblehead
